

## The Power of the Wind

1) What were the earliest wind mills used for?

---

---

2) In what way were the sails of early windmills similar to the sails on boats?

---

---

---

3) How is a modern windsurf sail more like the blade of a later windmill and why do you think this is so?

---

---

---

4) Where and when were the first kites developed?

---

5) List three practical things that kites have been used for over the years (do not include leisure).

---

---

---

6) What role did kites play in the development of the airplane?

---

---

---

**PROJECT:** Samuel Franklin Cody was quite a character. Make your own enquiries about Cody and find out about some of his other exploits.
